### C. DUTIES AND RESPONSIBILITIES.

#### 1. GENERAL.

You shall perform a full range of radiology services, within the scope of clinical privileges granted by the Commanding Officer, on site using government furnished supplies, facilities and equipment. Workload occurs as a result of scheduled and unscheduled requirements for care. Your actual clinical performance will be a function of the Commanding Officer's credentialing process and the overall demand for radiology services to include routine and specialized radiographic procedures (e.g., plain films, computed tomography, magnetic resonance imaging, ultrasounds, etc). In addition to the provision of comprehensive radiology services, you shall perform services in support of the radiology graduate medical education program (e.g., delivering lectures, teaching, observing/mentoring residents, etc.).

You shall be responsible for the delivery of treatment within the personnel and equipment capabilities of the Medical Treatment Facility (MTF), provision of mandated surveillance and preventive services, and the quality and timeliness of treatment records and reports required to document procedures performed and care provided. In all cases, the processes and procedures of the MTF will apply to the services that you render under this contract.

You shall be subject to guidelines set forth in the Command's quality assurance and risk management instructions. You shall perform administrative duties that include maintaining statistical records of your clinical workload, participating in medical education programs, preparing documentation for boards, and participating in clinical staff continuous quality functions at the prerogative of the Commanding Officer, consistent with other physicians providing the same level of care.

You will be evaluated annually on your performance and adherence to the requirements of your contract. However, the Government reserves the right to evaluate you semi-annually. Additional (i.e. special) evaluations may be performed to correct clinical or other performance deficiencies identified by the Government. The totality of scheduled performance evaluations, any special evaluations, memoranda of counseling sessions, and any other documentation generated by the Government will constitute your complete evaluation.

#### 2. ADMINISTRATIVE AND TRAINING REQUIREMENTS.

You shall provide training and/or direction to supporting government employees assigned to you during the performance of clinical procedures. Such direction and interaction will comply with Government and professional clinical standards and accepted protocols.

You shall participate in meetings to review and evaluate the care provided to patients, identify opportunities to improve the care delivered, and recommend corrective action when problems exist. Should a meeting occur outside of your regular working hours, you shall be required to read and initial the minutes of the meeting.

You shall participate in the provision of in-service training to non-healthcare-practitioner members of the clinical and administrative staff on subjects germane to medical care.

You shall attend annual renewal of Government-provided training requirements for family advocacy, disaster training, infection control, Sexual Harassment, Bloodborne Pathogens and Fire Safety.

You shall participate in the implementation of the Command's Family Advocacy Program as directed.

You shall perform administrative functions such as serving on boards and committees and attending or providing continuing education.

You shall attend training in the data systems used by the MTF. This Government provided training is estimated at a minimum of four (4) hours, and up to a maximum of 40 hours.

You shall obtain and maintain certification in American Heart Association Basic Life Support (BLS) for Healthcare Providers; American Heart Association Healthcare Provider Course; American Red Cross CPR (Cardio Pulmonary Resuscitation) for the Professional Rescuer; or equivalent. In the event you are otherwise qualified but do not possess or cannot maintain this certification and the Government elects to provide it, the Government reserves the right to deduct 4 hours of compensated service as consideration. Consideration will be based upon your hourly rate (the CLIN in Schedule B of the contract).

### 3. CLINICAL SERVICES:

Routine workload is scheduled by the treatment facility. Primary workload is a result of appointments generated by patient activity through the department or scheduled through the MTF. You shall have full responsibility for diagnostic examinations, the development of comprehensive treatment plans, and the delivery of treatment within the personnel, equipment, and supply capabilities of the facility. In addition, you shall have full responsibility for the quality and timeliness of the preparation of records and reports for procedures performed and care provided. Patients frequently have overlapping, multiple symptoms and often require multidiscipline, long-term treatment. You shall refer patients to staff specialists for consultative opinions and continuation of care and shall see the patients of other staff health care providers for consultation and treatment.

The work environment involves risks typically associated with the performance of clinical procedures. You may be exposed to radiation, contagious disease and infections requiring the wearing of personal protection equipment such as scrub attire, gloves, masks, and eye protection.

Your actual clinical performance will be a function of the Commanding Officer's credentialing process and the overall demand for hematology/oncology services. Your productivity is expected to be comparable with that of other physicians assigned to the same facility and scope of practice.

As directed by the Commanding Officer, you may be assigned other duties consistent with the normal duties of a physician including, but not limited to, participating in command quality improvement and assurance meetings.

4. ORIENTATION. You shall undergo on-site orientation. Orientation shall include familiarization with the facility, introduction to the Quality Improvement Program, introduction to MTF rules and regulations, introduction to military protocol such as military structure, time and rank, parking permits, infection control protocols and clarification of rights and responsibilities.
